

Huawei P10 and P10 Plus

Huawei has also launched two new smartphones, the Huawei P10 and P10 Plus. Both of them look like refined versions of the Huawei P9. There is also a new chipset powering the two new smartphones – Huawei's custom-fabricated Kirin 960 SoC. The Huawei P10 and P10 Plus feature metal unibody designs and measure 7mm in thickness.

Huawei P10 uses a higher grade of Leica lenses, classified under its 'SUMMILUX' lineup. The P10 gets a pair of f/2.0 lenses, and the P10 Plus gets wider, f/1.8 lenses. Alongside, you get upgraded sensors, and the P10's dual-camera mechanism now uses a 20-megapixel monochrome imaging sensor for more emphasis on fine details and contrast levels.

The phones are also available in a number of colours (Huawei partnered with Pantone to come up with two new and radically different ones). The design, especially the minimized antenna bands, particularly resemble Apple's iPhone 7, and so does a new 'Portrait' mode with its camera for bokeh. The home button has an integrated fingerprint scanner under the glass, and functions as the back button as well. Overall, it's a significant upgrade in a good direction for the lineup.

SPECIFICATIONS

Huawei P10 Plus

Display: 5.5-inch, 2560 x 1440p | **SoC:** HiSilicon Kirin 960 | **RAM:** 4GB / 6GB | **Storage:** 64GB / 128GB | **Rear Camera:** 20MP + 12MP | **Front Camera:** 8MP | **Battery:** 3750mAh | **OS:** Android 7.0 Nougat

Huawei P10

Display: 5.1-inch, 1920 x 1080p | **SoC:** HiSilicon Kirin 960 | **RAM:** 4GB | **Storage:** 64GB | **Rear Camera:** 20MP + 12MP | **Front Camera:** 8MP | **Battery:** 3200mAh | **OS:** Android 7.0 Nougat

Nokia 3

The Nokia 3, like the Nokia 5, is another Android-based smartphone targeted at the budget market. Priced at just 139 Euros (₹9,800 approximately), the device is likely to compete with sub-10K phones in India. The Nokia 3 will come with a 5-inch HD IPS LCD capacitive touchscreen display with a resolution of 720 x 1280 pixels at a pixel density of 294 pixels per inch. The screen is also protected by a Corning Gorilla Glass Scratch Resistant display.

SPECIFICATIONS

Display: 5-inch, 720p | **SoC:** MediaTek 6737 | **RAM:** 2GB | **Storage:** 16GB, microSD supported | **Camera:** 8MP, 8MP | **Battery:** 2650mAh | **OS:** Android 7.0

The Nokia 3, 5 and 6 smartphones will also come with unlimited storage on Google drive.

LG G6

The second flagship phone to be announced at MWC 2017 is LG's new G6. Moving away from modularity, this year LG is betting big on display. The LG G6 features a 18:9 Unisvision display, which is enabled by Dolby Vision and supports HDR 10. There is the signature dual camera setup at the back and all metal and glass design. Also, the LG G6 also becomes the first smartphone, other than the Google Pixel, to have the Google Assistant built inside the phone.

SPECIFICATIONS

Display: 5.7-inch, QHD (2880 x 1440p) | **SoC:** Qualcomm Snapdragon 821 | **RAM:** 4GB LPDDR4 | **Storage:** 32GB or 64GB (2TB microSD card supported) | **Rear Camera:** 13MP Wide (F2.4 / 125°) / 13MP Standard OIS 2.0 (F1.8 / 71°) | **Front Camera:** 5MP Wide (F2.2 / 100°) | **Battery:** 3300mAh | **OS:** Android 7.0 Nougat | **Weight:** 163 grams | **Size:** 148.9 x 71.9 x 7.9mm
The phone supports LTE, Quick Charge 3.0 and 32-bit Hi-Fi Quad DAC
