

GREED

DROOL MAAL

Get your drool on and behold some of the fanciest, ostentatious and drop dead gorgeous things money can buy. Droolworthy?

Bang & Olufsen BeoSound Shape

It would be an understatement to call the Bang & Olufsen's BeoSound Shape akin to wall art. The speakers have a modular design which looks like a series of hexagonal tiles connected to each other.

Behind each tile you have an amplifier, smart hub, speaker, or acoustic dampers. You need a minimum of six tiles to get the BeoSound Shape going, but you can scale it up as needed to form large honeycombs. It comes with hardware for AirPlay as well, through a connectivity hub hidden in one of the tiles. The BeoSound Shape costs \$4,200 (₹2,70,000 approx).

Truly Exquisite Samsung Galaxy S8

Samsung is claiming that the new Samsung Galaxy S8 is well on its way to becoming the company's most successful launch. Meaning a lot of people are going to be having an S8. Well, for those of you that want to stand out, UK luxury customising brand Truly Exquisite have gone ahead and made the world's first custom, luxury plated, Samsung Galaxy S8

and S8+. They've got three options to offer – 24K Gold, 24K Platinum and 18K Rose Gold. The 24K Gold option is the cheapest of the lot at just £2,250 (₹1,81,00 approx). The platinum option will set you back slightly more at £2,350 (₹1,90,00 approx). And finally, the Rose Gold version will cost you £2,300 (₹1,85,500 approx). Those are the prices for the S8 variant whereas the S8+ variants will cost you that plus another £100. But you'll be getting extra goodies for those prices as well, including a Samsung Gear VR, a wireless charging pad, a 24K Gold power bank charger and a luxury card holder. All of which will be delivered to you in a nice wooden box. You can pre-order your custom Samsung Galaxy S8 on the company's website.

Samsung Cinema Screen

Would you rather go to the movie theatre and watch projected movies or would you rather watch movies on a massive super-sharp 4K UHD TV at home? The latter, right? Samsung thinks so too. They're calling it the world's first HDR LED theater display and it vows to improve your movie-going quality tenfold. The Samsung Cinema Screen is massive, measuring a whopping 34 feet diagonally. It boasts of a peak brightness 10 times greater than that of standard cinema projectors according to Samsung. They haven't announced any pricing for the Cinema Screen as of yet, but we're going to go out on a limb and guess it's going to cost as much as its size.
