CUSTOMISE YOUR TECH MAKE IT YOUR OWN

We show you how to
geek everything up –
your phone, PC, home,
and even yourself!

TEAM DIGIT
feedback@digit.in

Usually our cover stories are filled with stuff that makes you think. We try and whet your appetite and encourage you to go out and find more information on your own. We kind of follow the philosophy: "Give someone bread and they will feed for a day, but teach them to farm and bake

and they will eat for a lifetime." However, sometimes, people just want some bread, with no gyaan and no fuss. That's this month's cover story in a nutshell. No fuss, no nonsense, just plain and simple geek knowledge that will show you how to do some geeky stuff. Now enough with this intro, let's get to the point straight away.
