The History of the World, I guess

If we had to put it in one sentence, the title describes the video pretty well. Definitely worth watching at least once.

Futurama: Worlds of Tomorrow

Futurama may be over and the fans may be dying for a new season but all we're getting is a game. Or a trailer, for now. Coming soon to Android and iOS. Oh well.

The Simpsons on Trump's First 100 days in Office

You've probably already seen all the popular late night show hosts and their take on Donald Trump's first 100 days in the Office, but have you seen the

Simpsons' take? They did predict this would happen 16 years ago, so we're pretty sure they've probably got this spot on too.

UPCOMING GAMES

Tekken 7

Tekken 7 is the latest installment to the world renowned fighting game franchise. Tekken 7 marks the 20th anniversary of the Series and is going to have a lot of focus on individual character stories. Tekken director Katsuhiro Harada has said that the story will be darker than ever before.

DiRT 4

The newest entry to the off-road rally racing Dirt series is expected to hit stands sometime in June. We're excited about this one, not many racing games do rally as well as DiRT does. It is going to be the twelfth game in the Colin McRae Rally series and the sixth title to carry the Dirt name. If the trailers

are to be believed entirely, there's going to be a lot of chaotic rallycross racing. We've got our seatbelts on already!

RIP Pepe, or not

Pepe the Frog was officially killed off by its creator Matt Furie this May. You can't not know Pepe the Frog. If you didn't know the name, you'd still probably recognise the character. Pepe has been around as a meme for almost 10 years now. Did Matt really think that officially killing him off would change anything?

Deadpool animated series

Donald Glover, who you may recognise from the popular sitcom Community, or perhaps as rapper Childish Gambino, is set to work on a Deadpool animation for FX. He, along with his brother Steven Glover will be producing and writing 10 episodes for the network.

Witcher on Netflix

Netflix has gone ahead and announced a new show which will be based on the Witcher franchise. The show will be based on the original books by Andrzej Sapkowski. The events in the books transpire before the events in the games. If you enjoyed Game of Thrones, chances are you might like this too.
