

comics. It's got recurring themes such as science, research, philosophy, atheism, romance, parenting, etc. and it's a daily. So you can now see why we've included it in this list here. The comics might be simple sometimes, but it's the longer ones with six panels or more that really bring out the brilliance of the creator. While there are recurring characters, you can simply jump in anytime and begin enjoying the comic because of the lack of a fixed storyline across comics.

15 STAR WARS CANON TIMELINE

George Lucas' *Star Wars* has inspired millions of folks and made him quite a few millions as well. And many of these inspired individuals went on to write novels and novellas of their own chronicling the events in the lives of each and every character. Want to know what Han Solo did before getting the Mil-

I consider myself something of a moral relativist.

A lesson in relativity, moral relativity.

lennium Falcon? Of course not. You already knew that one. But did you know that it was on the planet Tython that the ancient Je'daii order was founded?

If you want to know more about your favourite character or just revel in the extended universe then you need to know exactly where to begin. After all, there are thousands of *Star Wars* novels spread over a timeline that extends way past a millennia. Yoda's Datapad has them chronologically listed according to year of occurrence and also has the relevant "New Canon" (screw you Disney!) works listed as well.

Get your timelines straight

16 GET SOME CREEPY PASTA INSIDE YOU

The Secure, Contain, Protect Foundation is a fictional (sshhhh) organization that keep tracks of all the anomalous things out there, eldritch, malevolent, likely to get people killed in creative ways, you know, the works. SCP categorises each specimen and has a detailed bio along with their test results per entry. And there's like 4000 entries divided into 4 Series with 1000 specimens each. Plenty of spooky material to keep you engrossed for a while, and there's also some seriously good writing in there. Check it out.

17 GO DOWN THE RABBIT HOLE

A trope, to put it very bluntly is an idea the audience has already encountered and can recognize. It's used to make storytelling easier instead of having to ruin the immersion by explaining the particular idea in detail. Like Two Guys and A Girl or Flowers of Romance they allow you to grasp the idea very easily because you've seen it before. TvTropes.org is a huge collection of popular tropes used in modern movies and shows that's presented in a nice, clean, easy to read manner and has numerous examples to validate it. Each trope's description is peppered with hyperlinks to other tropes so a normal trope lookup usually ends with you going down the rabbit hole and reading way more tropes than you thought you would. Yup. Could happen to anyone.

18 FANTASY NOVELS OR NUFFIN'

/r/fantasy had a poll asking people to list their top 5 fantasy novel series and the results were all collected to make a list 105 books long. Whew. Talk about some reading list huh? The books are ranked in the page according to their position from the poll and you can click series you've already read to gray them out. This will also show you where you stand with respect
