Paris to get new art museum

François Pinault, the billionaire, plans to convert the former stock exchange Bourse de commerce into an art museum. <http://dgit.in/ParisStock>

Alcantara

While Alcantara does make for an excellent insulator, Microsoft could have given it a metal or plastic chassis as an endoskeleton with screw standoffs that could be screwed in from the bottom.

Glued and sealed

We understand gluing parts when the front surface is a screen as in tablets. But a laptop simply doesn't warrant that. It has to be made repairable.

Fixed storage

Just like the RAM, even the SSD is a single 256 GB NAND chip soldered on. The slim M.2 format exists for a reason people. Use it.

Core i7-7760U

This makes it one of the most powerful thin form-factor machines on the planet.

Soldered RAM

Giving upgradability a kick in the shins, these RAM chips are soldered.
