

Cthulhu Offerings, AnimeCoin and PotCoin are real cryptocurrencies

# 70%

of large miners cite their influence on protocol development as high, compared to 51% of small miners

**For a terminal with a mining capacity higher than 30%, at least 1% of the transactions can be frauded.**

# 41,640.12 %

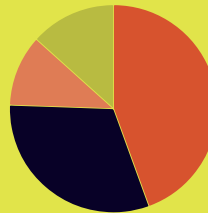

rise in the price of bitcoin in last 5 years

87 / 246 countries unrestricted bitcoins

First bitcoin blockchain is 8 years and 4 months old  
**7,480** bitcoin nodes online

■ Bitcoin - 41%  
■ Ethereum - 26%  
■ Ripple - 11%  
■ Others - 22%

**Market share as on 26/06/2017**

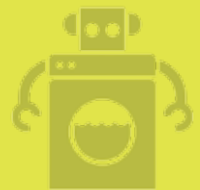

According to **Security Gladiators**, each Bitcoin transaction represents about

**89%** of an average American household energy needs.

## ETHEREAL SMARTNESS

Using Ethereum, IBM and Samsung worked on a proof of concept where a washing machine could:

- Order its own detergent when it runs out
- Call its own repairman when it breaks down
- Do the laundry when electricity is cheapest!
