

Taylor Swift back on Spotify

Taylor Swift shakes it off with Spotify and ends her three-year boycott to celebrate 10 million sales of the 1989 album. <http://dgit.in/PrettyTaylor>

Snapping and mapping

Snapchat's latest acquisition is social mapping app 'Zenly' which enabled it to launch its newest feature - 'Snap Map'. <http://dgit.in/MapSnap>

From the world of technology, science, culture and just about everything else, we bring you our picks of the best photos, memes, or art we came across in the past month

Known as the analemma pattern in astronomy, this photo of the Sun was taken from the same spot, at the same hour, on different days throughout the year. It occurs because the Earth is tilted on its axis and revolves around the Sun in an elliptical orbit.

When you want to play arcade games IRL. Yes, that's an actual court. This is the Paris Duperré basketball court designed by French fashion brand Pigalle and III-Studio.

What looks like a giant wave that is about to swallow an island, is actually the isolated Gergeti Trinity Church located near the Gergeti village in the outskirts of Georgia. Behind it, is Mount Kazbegi covered in snow.

This 1:24 scale model of Alien Isolation made completely out of styrene and toy figurines took 30 hours to build and around 4 hours of post processing. Image credit: Travis Zielinski (<http://dgit.in/Travis2>)
