

The India car launch directory

ALREADY HERE

#1 MERCEDES-BENZ GLA-CLASS

The new GLA SUVs now look more mature, and not just beefier A-Class hatches. They get a new infotainment system, along with a new front grille and a more aggressive overall stance.

#2 VOLVO V90 CROSS COUNTRY

Volvo has introduced what happens to be the only car in its class - a luxury estate wagon. It gets a host of adaptive and assistive technologies. Price? ₹60 lacs *won't*.

#3 2017 SKODA OCTAVIA

The 2017 Skoda Octavia brings a new design, alongside getting technological upgrades like a new infotainment system, handsfree parking, ambient lighting and more.

#4 MERCEDES-AMG GLC 43 COUPE

The 2nd Mercedes SUV to be launched within a month, this one is a performance brute that gets all the AMG goodies like multiple driving modes, and the COMAND infotainment system.

#5 TATA'S FIRST BIO-METHANE BUS

The Tata LPO 1613 is no luxury car. But, it is significant in India's quest to reduce vehicle emissions and make public commuting systems more viable. It runs entirely on bio-CNG, and offers modern amenities.

JUST AROUND THE CORNER

#6 HYUNDAI VERNA

The new Hyundai Verna is slated to launch in about a month. It will borrow heavily from the Elantra, and will come with a number of new features including support for Apple CarPlay and Android Auto, better interiors, and in what happens to be the most significant upgrade for the new age buyers - a 6-speed automatic transmission over the old, 4-speed auto.

#7 TATA NEXON

Tata is betting big on the Nexon SUV, which is all set to launch in about two months. The new SUV gets a new HD display, support for Android Auto and Apple CarPlay, eight Harman speakers and more premium interiors onboard. Alongside, the Nexon will also get two new engines. This launch continues Tata's efforts towards re-inventing its image.

LOOKING AHEAD

#8 HYUNDAI I30 N

The Hyundai i30 N, will fall under the hot hatch category that has the Minis and Volkswagen's GTI in India. Features? Panoramic sunroof, adaptive braking and more!

#9 JAGUAR E-PACE

The Jaguar E-Pace set records by hitting a 270-degree barrel roll, thereby affirming its sporty bearings. It has a great engine, and is more compact than the F-Pace.

#10 HONDA ACCORD

The Accord 2018 gets a 10-speed automatic transmission, along with connected and assisted car bearings. There's a redesigned dash, and Honda Sensing's safety features.

#11 AUDI A8

It gets automatic driving in traffic, adaptive cruise control, and a total of 41 individual driver assist systems. It won't come to India until late next year though.
