

STANDING OUT

Originating in Taiwan, the world's ultimate gaming destination, the TEGC was anticipating a packed stadium. Taiwan, filled with passionate gamers, is one of the world's largest consumers of online games. The country has seen a mainstream acceptance of e-sports in recent years and the presence of the world's leading gaming brands like Acer, AVerMedia is an added advantage. In Taiwan, cutting-edge technology is present, talent and ideas are flourishing and gaming tournaments are plentiful, with an ample amount of funding. From the government to the private sector, there is a general desire to put Taiwan on the global map in terms of development. TEGC comes to India and brings along its advanced technology, the big bucks and the chance to participate with the best of competitive gaming. **Chandrahas Panigrahi, CMO and Consumer Business Head, Acer India** – one of the brand partners for TEGC elaborates on this well: "TEGC has become one of the pioneer e-sports events in India bringing together aspiring gamers with the best technology companies from Taiwan. Acer is proud to contribute to the growth of the Indian e-sports market with our line-up of Predator and Nitro gaming series. The key to TEGC's success has been the collaboration of different gaming brands reaching out to the gaming community in India, with a single focus of nurturing and developing the gaming market and give budding gamers the platform to showcase their skills on some of the best gaming machines in the world."

ALLEGIANCE WITH THE BEST BRANDS

Panigrahi is referring to the fact that this year TEGC has as many as 15 of the best and most renowned Taiwanese gaming brands as their brand partners. Acer, Adata, Asus, AVerMedia, BenQ, CoolerMaster, CyberPower, D-link, FSP, Gigabyte, InWin, MSI, Optoma, Thermaltake and Transcend featured their finest gaming accessories at the grand finale. For instance, this year at TEGC, AVerMedia presented their Live Gamer Portable 2, a premium successor to the renowned USB capture card Live Gamer Portable (LGP). LGP2 works perfectly with game consoles, recording and streaming gameplay in 1080p60. It is able to achieve vast connectivity, hardware compression capability as well as an intuitive user interface sure to satisfy all types of gamers. AVerMedia Technologies is a global player in the design and manufacture of presentation and multimedia products. Said **Vincent Tsai, Marketing Manager of the Channel Marketing Department in AVerMedia**, "Through TEGC, AVerMedia wants to be promoted as a Taiwan Excellence gaming brand, and this is a great opportunity to educate more Indian gamers to know about video capture card, so they can personally experience the fun of live streaming."

THE BEST IN GAMING FOR INDIAN GAMERS

This is what TEGC is offering Indian gamers: an experience of a lifetime and the chance to view the best in gaming first-hand. It also gives the Indian gaming industry momentum for greater development. A recent report jointly prepared by lobby group Confederation of Indian Industry (CII) and market research firm TechSci Research showed that the Indian gaming industry is growing at a healthy pace, with credit given to increasing smartphone and internet usage and rising income levels of consumers nationwide. The report 'Emerging Trends in India Gaming Industry' said that the Indian gaming industry is expected to reach \$801 million by 2022 from \$543.08 million in 2016, growing at a compound annual growth rate of 6.61%. According to the report, gaming has not been able to attain strong foothold in the country in the past "due to its low social acceptance as well as lack of access to personal computers and gaming consoles in the country." This has definitely changed now and the gaming landscape in India has evolved over the last decade. More and more people in India are willing to spend money and time on gaming, in turn allowing the industry to flourish where good games prosper. The growing community of gaming professionals in India who, till a decade ago, played at local tournaments in neighbourhood cyber cafés, are now seeing it all shape up as a major organized sport with great prizes. Many professional gamers have been quoted as saying that their day begins at 10 am and they call it a night around 2 am, practicing for 7-9 hours every day and up to 12 hours before major events.

In this scenario, championships like TEGC are a dream come true for them. Kenneth Chang, Integrated Sales & Marketing Department of Thermaltake, explains this phenomenon. "In recent years, the gaming industry in India has been growing at a healthy pace because of the increasing adoption of advanced gaming technologies, rising income levels and changing game preferences among consumers. Here, gamers are keen to choose the
