

Religion upgrade in Civilisation VI

Sid Meier's Civilisation VI getting a free upgrade to expand the game's religious system while adding new beliefs and units. <http://dgit.in/Civ6Rel>

Valve's iconic Orange Box turns 10

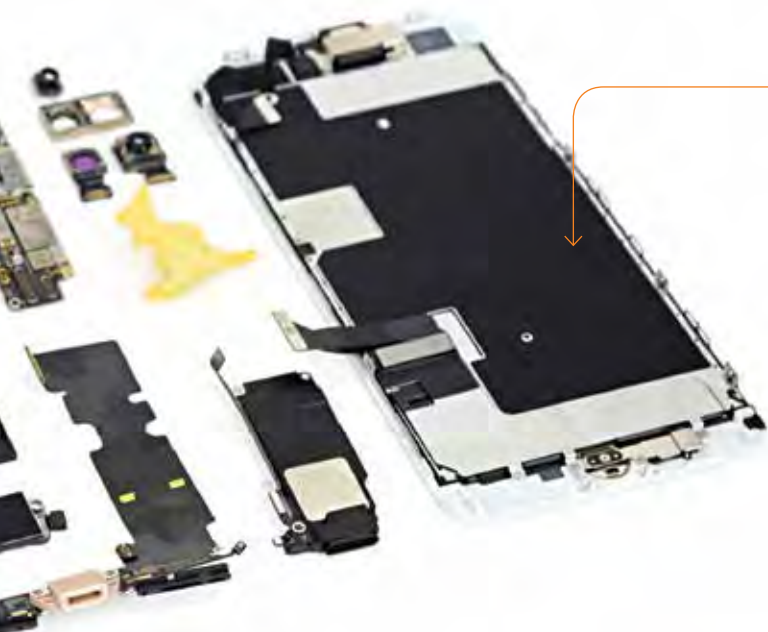

10 years ago, Valve had launched the Orange Box that included Portal, Team Fortress 2 and all the Half Life 2 games. Nostalgia anyone? <http://dgit.in/ValveOBox>

Fastest CPU in a smartphone

Apple's new A11 bionic chip has obliterated past the scores on Geekbench compared to other smartphone CPUs. It has managed to score higher than an Intel Kaby Lake i5 CPU used in a 2017 Macbook Pro 13" in multi-core benchmarks.

Apple iPhone 8 Plus

True tone display

Reading under direct sunlight will be easier with the new True Tone display on the iPhone 8 Plus. It measures the ambient light in your environment using light sensors and adjusts the white illumination on your display, offering better readability.

Augmented Reality ready

Both the phones have been designed to support AR applications. The dual-camera, accelerometer, gyroscope and the A11 bionic chip will be working together to offer the complete AR experience.

Wireless charging, finally!

Apple is finally introducing wireless charging to their smartphone lineup using the Qi wireless charging standards. Both the iPhones can be charged wirelessly using Qi-certified inductive chargers.
