

**Juno captures two moons of Jupiter**

NASA's Juno spacecraft has captured a spectacular image of the two moons of Jupiter including Io and Europa. <http://digit.in/JunoMoon>

**US scrapping carbon cutting plan**

The EPA signed a measure to repeal Obama's policy to curb greenhouse gas emissions from power plants. <http://digit.in/TrmpClimt>

Out Cold!

We have a lot to learn about those times when the brain doesn't function properly, and we're not sure how to go about it...
