

digit diary

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

Holy fuzzmuppets it's November already. The year's almost at an end y'all. This month's closing is brought to you by Redbull. Just kidding. But they did send us a cool VR Cardboard / 6-pack of Redbull.

Who needs sleep when you've got Redbull!

Don't listen to us, you do need sleep. Sleep is good for you.

October marked the 10th anniversary of the company and of course you can't not have a party on such an occasion. The relatively newer joinees to Digit, namely Arnab and Manish, got to meet some of Digit's veterans who dropped by for the anniversary party.

A lot of old faces showed up. Siddharth actually wanted to carry two systems along to the party so that

he could have a game of Quake with everyone, just for old time's sake.

Diwali is a good time in the office – especially in the sense that we get to eat a lot of sweets and chocolates. Here's to hoping that we haven't overdone it

and our (sweet) tooth isn't permanently numb. As we mentioned earlier, Souvik handles all the auto tech that comes our way, which Siddharth was more than happy about. **In fact, there might be a**

Porsche coming to the labs soon,

and all of us (Sid especially) are quite excited about that.

October was a blockbuster month for games, so many new releases in the span of one month. Cuphead, PES, Marvel vs Capcom, Gran

Turismo, WWE, gawd the list is endless. Mithun finally brought the PS4 Pro to office and hooked it up and we all tried to get some gaming in whenever we could afford to. Of course, that didn't stop everyone from playing a game or two of PUBG every now and then.

Next month is December, meaning **Zero1 is already upon us** and the products have started rolling in for review. Here's hoping we survive the onslaught that's about to be unleashed!

QUOTE OF THE MONTH

"This car just won't turn, I'm gonna crash!"
-Souvik, DGT Auto
