

ZERO1.DIGIT.IN

That's not all for this year's Zero1 categories. We've got more Zero1 categories lined up for you. Head over to the website to check them out.

Business Laptops

For when you want security and reliability on the go for all your business needs, these machines are built for the purpose and can handle any intensive productivity task that you can throw at them.

Liquid CPU-Coolers

Your high-end unlocked CPU needs a lot more cooling than you've accounted for. We've tested some of the best liquid coolers for CPUs. Check out these beasts to figure out how best to tame your HEDT CPU.

Entry-level DSLRs

Are you starting out with photography as your new hobby? It's best to start with an entry-level DSLR as these offer performance that's way better than your smart-phone can every offer but without costing an arm.

Semi-Pro DSLRs

So you've grown as a photographer and you need to scale up your gear. Look no further as we check out some of the best semi-pro DSLRs released this year for our Zero1 awards. Here's your next camera.

Mirrorless Cameras

Mirrorless cameras are all the rage these days since they offer really great performance but are a lot lighter than traditional DSLRs. We tell you which is the best mirrorless camera in the market right now.

4K Monitor

A 4K monitor stands a class apart from standard 1080p monitors or even 1440p monitors. You certainly need a powerful graphics card to game on these beasts as well. Check out this year's best 4K monitor.

Mainstream Laptops

Do you simply want a laptop, a plain jane laptop without all the frills and worries? Then mainstream is where it's at. One of the most popular laptop categories has seen a lot of action this year.

4-Bay NAS

Storage is the need of the hour. You can always invest in some cloud storage but if you want a lot of space but for a fraction of the cost then your own personal NAS is the way to go. Here's the best that we saw this year.
