

App store games to list odds

Apple now require App Store games with loot boxes in them to list out their odds. These rules also touch on VPN and cryptocurrency apps. <http://dgit.in/LootBoxAds>

Eric Schmidt to step down

Eric Schmidt is stepping down as the Executive Chairman of Alphabet and is transitioning to the role of technical advisor. <http://dgit.in/TataSchmidt>

Teardown: Apple Watch Series 3

Making phone calls isn't the only highlight in Apple's latest smartwatch.

Abhijit Dey | abhijit@digit.in

Barometric altimeter

Fitness enthusiasts opting for the Series 3 would prefer not to carry their iPhone along. With the barometric altimeter inside, the device will be able to calculate elevation data, which forms a necessary aspect of tracking workouts.

Bigger battery

Even though there are more components inside the watch, the battery on the Series 3 sees a 4% increase at 1.07 Whr from 1.03 Whr on the Series 2.

Red digital crown

A red digital crown on the dial is present on the cellular version of the Series 3 watch, to differentiate it from the non-cellular version.

Qi charging support

Although the Series 3 supports the Qi wireless charging standard, not all chargers were able to charge the device. Sometimes, it is also affected by the placement of device on the charging pad.

Apple Watch Series 3

More storage for songs

Another interesting feature to make its way to the Series 3 watch is support for Apple Music and with 16GB of onboard storage, you can have more songs stored in the device.
