

The Last Jedi review bombed

Star Wars: The Last Jedi is getting review bombed on Rotten Tomatoes despite positive critics' reviews. <http://digit.in/TJJBmb>

The Office reboot

NBC workplace comedy, The Office might be getting a reboot in 2018 sans Steve Carell. <http://digit.in/OfcRboot>

Sometimes protests generate memes, dust generates art, and nature decides to strike a pose in all its glory!

Iceland is filled with beautiful landscapes, monuments, and riverbeds as seen in the image above, captured by Sergey Aleshchenko.

If you've ever wondered what a flying fish looks like up close, here you are.

Finland celebrated their 100 years of independence, where several F-18 Hornets flew in formation.

Fallen leaves in Autumn naturally look beautiful and when someone arranges them to form a labyrinth, they look amazing.

Are you fan of high-resolution images? Well, someone blended 105 exposures of New York City after a snowstorm through day and night resulting in a 620-megapixel photo.

There's something mesmerising about clear water bodies where you can see directly to the bottom.

A beautiful view of the Blue Dragon river in Portugal. We can clearly guess why it got that particular name.
