

AMD gets new head for RTG

Mike Rayfield and David Wang have joined AMD to lead Radeon Technologies Group post Raja Koduri's exit. <http://dgit.in/NewRTGHeads>

Quantum gets better

Firefox has improved performance with version 58 that brings better multithreading support and better security. <http://dgit.in/QuantFox58>

Apple iMac Pro

Dual SSDs inside

Apple is using dual SSDs for their internal storage. The only problem is that they are again custom-made by Apple using SanDisk chips. This makes it more complicated for replacements.

Going all out

The ₹4,15,000 price tag is for the most basic configuration. If you go all out with an 18-core processor, 128 GB of RAM and 4 TB in SSD storage, then the total cost should be around ₹9,50,000.

BGA-soldered GPU

The AMD Vega 56 GPU (pictured here) is a BGA and has been soldered onto the main logic board which means that you won't be able to upgrade your GPU later.
