

Call quality rating in different scenarios

Voice quality rating vs operator

Call quality experience

Overall, **Jio, Tata** and **Aircel** had the highest call quality ratings.

The reported call quality indoors

was actually better than the call quality outdoors in most cases.

Surprisingly, the highest call quality rating over 4G connections was when the consumers were travelling.

All the data was crowdsourced from the **TRAI MyCall** app available on the Android App Store. Readers can participate in the process by downloading the application from digit.in/traimycall
