WE SAY

It does very well in terms of ease of setup, loudness and clarity on offer and the simplicity of operation. If you do have to speak on the phone while driving, this is the gadget to buy. It's not very economical, but that's the price you pay for road safety.

7.0

It looks like a compact cousin of the higher end E3000. The E1000 is a wireless N router ideal for average users and it priced at an affordable ₹3,250. It gave transfer speeds under 7 MBps in Zone 1 and 2, whereas video streaming was best in Zone 1.

6.0

WUSB600N is an 802.11n USB adapter to connect your system to the internet. It gave great data transfer speeds. Zone 1 (Sequential / Assorted) : 8.88 / 4.02 MB/s and Zone 2: 6.87 / 1.41 MB/s. At ₹4,000 its pricing is still on the higher side.

6.5

It comes with a finger print scanner to protect the HDD data from unauthorised access. Data transfer speeds hovered around 20 MB/s. At ₹19,500 it's suited for those who carry extremely critical data. Build quality is top notch.

WE SAY

It supports the Advanced Format Technology (4K sector). It gave the following transfer speeds: Sequential / Assorted File Write: 90 / 54 MB/s; Sequential / Assorted File Read: 92 / 67 MB/s. Makes a great buy at ₹3,500.

7.5

WD7500BVPT is a good performer. If you can wait, prices might fall further within six months. However, if you need the space, and can afford to shell out, you'll definitely not be disappointed. For a detailed review go <http://bit.ly/ibAiZS>

7.0

This has a SATA 3.0 interface but only 16 MB of cache buffer. Transfer speeds were hovering around 90 / 81 MB/s for Sequential / Assorted Write and 92 / 66 MB/s for Sequential / Assorted Read. At ₹1,900, we would advise you to wait till prices drop.

6.0

It has a SATA 2 interface. It gave following transfer speeds: Sequential / Assorted File Write: 85 / 81 MB/s; Sequential / Assorted File Read: 87 / 75 MB/s. These are good speeds for someone looking at affordable drives for everyday use.
