

Are you overpaying for Oracle Database? Hint: you're overpaying for Oracle Database.

The first thing to consider when thinking about DB2® for your business: it's as low as 1/3 the cost of Oracle Database. Then consider DB2 on Power Systems™ with 3x the performance per core of Oracle Database on SPARC, in TPC-C and SAP SD benchmarks. Overall, an ironclad case for IBM. There's more where that came from, too.
