Glary Utilities

After repetitive frequent usage of a computer, system maintenance becomes absolutely necessary. It's required to increase the speed and efficiency of your system. There are many standalone single purpose computer maintenance software like registry cleaners, spyware and malware cleaners, uninstall managers, startup managers and disk space allocation managers. But incidentally all these software have only one primary goal, helping you optimize the performance of your computer to its maximum possible capabilities. Glary Utilities is a one-stop computer maintenance software that can do almost all of the tasks mentioned above. This software combines all computer maintenance tools into one simple, fast and friendly user interface.

Glary Utilities' objective is to help you optimize, clean and speed up your Windows computer. All the tools in Glary Utilities are split up into five different cat-

egories depending on the function or job to be performed.

Clean Up and Repair

The utilities offered under the Clean Up and Repair module are primarily tools to help you clean junk files and correct computer problems.

- The Disk Cleaner is a tool which works better than the Windows Disk Clean-up function and lets you remove all the junk data contained in your disks. It also helps in recovering disk space by getting rid of the useless temporary files which might be clogging your disk space.
- The Registry Cleaner tool cleans up and deletes all unwanted registry entries of malware or uninstalled software which might be slowing

Olive Health Care
Daman (Gujarat)

Cost of proprietary software licenses was going way beyond 20,00,000/- which has been phenomenally reduced by Enjay and their Linux services. Enjay and its employees have helped us to reach our goal by training our desktop users & desktop administrator. They have been tied up with us for a yearly support which till now seems to be very good and significant.
