OUR PICK OF THE BEST TECH ARTICLES FROM AROUND THE GLOBE

(MUST READS)

RADAR SEES THROUGH WALLS

The ability to see through walls is no longer the stuff of science fiction, thanks to a new radar technology developed at MIT's Lincoln Laboratory. There are numerous civilian and military purposes for this device. Sounds like real life wall hacks are finally here.

A TRIBUTE TO DENNIS RITCHIE

The most important guy in computer technology, the brains behind UNIX and programming languages like C, a computer scientist who made a profound impact on almost every aspect of computer-related technology passed away earlier last month. Read how the world remembered Steve Jobs but almost forgot the guy whose shoulders he stood on.

THE MOST RELAXING SONG EVER!

It's so sleep-inducing that motorists have been banned from listening to Weightless, a song written by a Manchester band, Marconi Union. The band worked with sound therapists to get advice on how to make the most effective use of harmonies, rhythms and bass lines. Also check out their list of the top 10 relaxing songs.

WHEN STREET FIGHTER MET G.I. JOE, THE WORLD SUFFERED

Total Recall is a feature on Kotaku that explores the history of video games through its characters, trend and developers. Here's an interesting article on how the idea of creating action figures of Street Fighter characters didn't really work out the way it was intended. <http://bit.ly/pUSAgf>

The beautiful art of Call of Duty: Black Ops

There's more to Call of Duty than military mayhem. The environments in which the games take place are rarely 100 per cent authentic, which means someone had to dream them up. In this case, it's artist Michael Zimmerman.

The greatest arcade cabinet that never was

At the turn of the millennium, Namco showed off an arcade game that looked like it had fallen out of the 22nd century. Housed in a giant cabinet called O.R.B.S., it could've been just what the dying arcade scene needed.

What one designer wants for the next Xbox

The next Xbox hasn't been announced. There've been hints and rumours, but nothing official. Gears of War Cliff Bleszinski is no different. Check out what he'd like to see in Microsoft's next gen console.
