Shashank Mehta Since NFS Run just released its a probable guess for the left screen, right one looks more like Skyrim or AC.R considering the graphics relevance. bdw you guys need bigger monitors, Pileaseeee.

Look for sapphire hd6570 or sapphire hd5670.

I failed in some subjects in exam, but my friend passed in all. Now he is an engineer in Microsoft and I am the owner of Microsoft.

Re: Need Help/Buying a Graphics Card

Temda's suggestions are nice, but don't expect to play BF3 on high settings. You get what you pay for with those cards.

Intel Core2Quad Q6600 (2.4 ghz, overclocked to 3.0ghz)
 Gigabyte GA-G43M-Combo
 CoolerMaster Gemini II-S Cooler
 8GB DDR3 1333
 MSI GTX 560Ti
 Corsair TX750W S.MPS
