You can now edit images and videos on your PS3

Sony has launched a new cloud storage service called PlayMemories Online. It will allow owners of certain Sony products such as PS3 consoles to upload up to 5 GB of images and videos. Once uploaded, the content will be accessible and editable via the PS3, as well as smartphones, tablets and the PlayStation Vita.

Apart from uploading to the PlayMemories Online cloud storage service via PC and phone, cameras, camcorders and USB drives can also be plugged in directly to the playstation. PS3 owners can then view HD videos and images, and even do some editing – part of the PlayMemo-

ries Studio, which will be available as a 30-day free trial version, or roughly \$15 to buy. For PlayStation Plus subscribers, however, there's a free lifetime access.

Your fix of art with no visit time limits, Google style

Art lovers rejoice, Google has launched its Art Project in India. You can choose from 30,000 high-resolution images of artwork by over 6,000 artists across the world – 40 countries to be precise – to view, appreciate and fawn over. What's more, Delhi-based

tual information such as title, date, artist and collection. Click on "details" and there's written information about the piece. You can also compile and create unknown information about collections and share them online via Google+.

"The platform gives you a fun and unique way to interact with art and we

hope this inspires you to visit the real thing. Users all over the world can now interact with art in a way that was never possible before - brush level strokes of paintings, virtual tour of the museums and a feature that allows you to create your own collection to share with your friends

and family," says Google in a blog post. Google's dedicated web site for Art Project is at googleartproject.com

Now we don't claim to be art connoisseurs ourselves but what's up with the conspicuous absense of great artists such as Picasso?

National Gallery of Modern Art and National Museum have also partnered in this Art Project campaign.

With Google Art Project, you can virtually walk through museum galleries – a feature powered by its Street View technology. Each piece of art has contex-
