Re: A product website design and development

Are you making a specialized CMS kind of thing for quickly generating a IT-product e-commerce site?

I am just starting out after a long time.
It's kind of a simple CMS.

Everything is from scratch. Using php, jquery and usual html CSS stuff.

Looking for free stuff online?

Re: Free Giveaway Site

Nice to see a giveaway site other than the popular giveawayoftheday.com
I think I found a good video editor there. TFS.

The Windows 8 Thread

The Next "Big Thing" in Windows Line Up of OS is Here-Windows 8.

Windows 8

Microsoft is calling it as a rebirth of their Existence, with inception of Windows 8.

Windows 8 is first Windows OS which has been designed to run on both ARM and X86 Machines.

Windows-On-Arm aka Windows RT is meant for Low Power and Portable devices like Tablets, Netbooks and Tablet-Netbook/Notebook Hybrids.

Windows 8 major Attraction is the Simple and intuitive Metro UI with hosts of Live Functionality like those of Tiles on Windows Phone.
