Anshel Borah Before that what power supply do you have?

Digvijay Kumar If u have 600watt + branded psu like coolermaster, antec, fsp etc. Then you can go for ati 7850 or gtx 560ti which costs approx. 14000. and if you don't have good psu then buy ati 7770 or gtx 560 (they cost under 11000) with 500 watt branded psu (2000-3500)
