

Norton™ Internet Security

ADVANCED protection for you and your PC.

Key features and benefits

- Email, chat, surf and socialize on the Web without worrying about cybercriminals.
- Protect yourself from unsafe and “scam” websites.
- Shop and bank online with complete protection against theft of personal information and money.
- Block hackers from accessing your computer.
- Regulate kids' Internet use with Parental Controls Management.
- Update and renew Norton products online with cloud based Norton Management.
- Up-to-the-minute protection with updates every 5 to 15 minutes.
- Silent mode prevents slowing down of games and movies.
- Smart Startup Manager turns off unnecessary programs for faster PC startups.
