

Telecom Crash Course

Author: Steven Shepard

Explore the vast telecom landscape, from standards and protocols to access and transport technologies. Far more than an acronym-studded quick fix, Telecom Crash Course is a true tutorial that offers you context, connections, and the wisdom to quickly grasp key technologies, including wireless Internet, optical networking, 3G, IP, protocol layer, PSTN, ATM, spread spectrum, GPRS, and SIP. Author Steven Shepard includes lively stories that deliver important

points about the markets that drive the technologies. You get rigorous technical accuracy, with explanations of each technology's economic importance. Here's your chance to decipher the alphabet soup of telecom acronyms—not just what they stand for, but what they mean and how they can generate profits.
