

The table below acts as a reference for various configurations when you are purchasing a power supply. We have used Intel processors in the configuration mentioned in the table, but these can be used for reference when purchasing a power supply for AMD systems as well.

	Low-End Configuration	Mid-Range Configuration	High-End Configuration
Processor	Intel Pentium 4, Prescott, S478, 533 MHz FSB, 2.4 GHz	Intel Pentium 4, Prescott, S478, 800 MHz FSB, 3.0 GHz	Intel Pentium 4, Prescott, S478, Extreme Edition, 3.4 GHz
Video Card	nVidia GeForce FX 5200	ATI Radeon 9800 series	nVidia GeForce FX 6800 Ultra
AmountOf Memory	Two sticks of DDR memory (256 MB each)	Two sticks of DDR memory (512 MB each)	Two sticks of DDR memory (1 GB Each)
Number Of Hard Drives	One, 7200 rpm	One, 7200 rpm	Two, 7200 rpm
Number Of Optical drives	CD-RW Drive	DVD/CDRW combo Drive	DVDFfIR/RW drive
PCI Cards	—	Sound Blaster Live	Sound Blaster Audigy
External Devices	1 USB memory stick	1 USB memory stick	1 USB external drive/1 FireWire device
Accessories	One 60/80/120mm system fan	Two 60/80/120mm system fans	Two 60/80/120mm system fans
Total Power Required	253 Watts	279 Watts	349 Watts

Other hardware taken into all equations (36 Watts):

Motherboard (25 watts)

Floppy drive (5 watts)

Keyboard and mouse (3 watts)

CPU fan (3 watts)
