

7.1 Word 2003

Place Tables In Adjacent Columns

Use this in Word to put two tables adjacent to each other on a two-column page: first, insert two tables, one above the other. Adjust the column widths to ensure that the total width of each table is less than half the width of the page. Select both tables. Now on the 'Standard' toolbar, click the 'Columns' button, and then drag the pointer to select two columns.

Creating A Picture Of A Toolbar Icon In Word

To create a picture of a toolbar icon, you can use a screen capture program. But you can also try the following: in any Office program, right-click the button you want an image of, and then click 'Customize' on the shortcut menu. With the 'Customize' dialog box open, right-click the button again, and then click 'Copy Button Image' on the shortcut menu. Click 'Close'. Now you can paste the button image into your document.

Make Graphics Line Up Precisely With Text

You might sometimes need to include a picture of a toolbar icon. If you just copy and paste the icon into a line of text, the graphic usually appears higher than the text adjacent to it. To resolve this, do the following: first, select the graphic. Then on the 'Format' menu, click 'Font', and click the 'Character Spacing' tab. Click 'Lowered' in the 'Position' box, and then specify how much space you want in the 'By' box. Three points is usually enough for most toolbar icons.

Navigate Long Documents Easily With Hidden Bookmarks

When you work with long documents in Word, it can be difficult to remember where certain text appears. You can use hidden bookmarks to quickly navigate to that text. To add a bookmark, first, in your document, click where you want to place a bookmark. On the 'Insert' menu, click 'Bookmark'. When the 'Bookmark' dialog box opens, name your bookmark. Then click 'Add'. To find your bookmark, press [F5] to open the 'Find and Replace' dialog box. Click the
