

'New Folder'. Now, type a name for the folder, such as 'Unknown Senders', and click 'OK'.

Next, create a new rule with the 'Rules Wizard': on the Tools menu, click 'Rules Wizard'. Click 'New', and then click 'Start from a blank rule'. Click 'Check messages when they arrive', and click Next. In the 'Which condition(s) do you want to check?' box, select the 'On This Machine Only' check box. Click 'Next'. In the 'What do you want to do with the Message' box, click 'Move it to the Specified Folder'. In the 'Rule Description' box, click 'specified', click the folder you created (such as 'Unknown Senders'), and then click 'OK'. Click 'Next'. In the 'Add any Exceptions' box, check the 'Except if sender is in specified Address Book' checkbox. In the 'Rule description' box, click 'Specified'. In the 'Add Address List' dialog box, choose 'Outlook Address Book', click 'Add', and then click 'Next'. Type the name of your rule, click 'Finish', and then 'OK'.

Calendar-Viewing Shortcuts

- m In Outlook's Calendar, do the following:
- m Press [Alt] + [-] to display the current week.
- m Press [Alt] + [=] to display the current month.

Use vCards

Outlook supports the use of vCards, the Internet standard for creating and sharing virtual business cards. By adding a vCard to your e-mail signature, you can easily include your business contact information with every e-mail message you send.

If you receive a vCard and would like to save the information it contains, simply double-click it, and it will open as a contact item that you can easily save to your Contacts folder.

To include a vCard with your e-mail signature, go to Tools > Options, and then click the 'Mail Format' tab. Under 'Signature', click 'Signatures', and then click 'New'. Select the options you want, and then click 'Next'. Under 'vCard options', select a vCard from the list or click 'New vCard from Contact'.
