

such as those with large attachments. Here's a fast way to expose the space stealers hiding in your Outlook folders.

To create a customised search file in Outlook, go to **Tools > Advanced Find**, and then click the 'More Choices' tab. In the 'Look for' box, click 'Messages'. In the Size list, click 'greater than', and then type a number such as 500 (for files that are 500 kilobytes or larger). Select the remaining search options you want, and click 'Find Now'.

When the search is complete, you can save it as a shortcut. Here's how: click 'Save Search' on the 'File' menu of the 'Advanced Find' dialog box, and save it somewhere you can find it easily later, such as your desktop. Then, the next time you want to run this search, just double-click the shortcut.
