

www.indiafm.com

Yes, we know that you are frustrated by checking out the Hollywood websites that are available a dime a dozen, and so this website does not speak about Hollywood, but hamara Bollywood. This was one of the first movie portals that was dedicated to Bollywood and remains one of the most visited website on the net for anything Bollywood. This site is known for good wallpapers and chances are, you must have definitely seen a wallpaper downloaded from this website, adorning the desktop of your colleague or relative at one point of time or the other.

Other than wallpapers, you can also find the news on your favorite celebrities, be it on film or TV, updates and guides on almost everything that is celluloid. This is a one-stop website to keep you updated on the latest happening on everything Bollywood.

www.indiaglitz.com

This website is one website that has information of Hindi, Telugu and Tamil celluloid industries. This website has been designed with pizzazz and looks very classy.
