

persons and/or other organizations that are directly involved with the publishing organization, or those it wants to reach with the purpose above.

Relationship blogs - external

- Purpose: To create, uphold or strengthen relationships.
- Blogger: The organization itself, or more specifically individuals within it writing on behalf of the organization.
- Target groups: Often smaller and more specified than with sales blogs. Examples are support blogs aimed at customers of a certain product, finance blogs for IR purposes, PR blogs for media, blogs trying to reach students, future employees, politicians/officials etc.

Branding blogs - external

- Purpose: To strengthen the brand, the profile, of the publishing organization or individuals within it.
- Blogger: Not necessarily the organization itself. Individual employees' or executives' blogging ("insider blogs"), if supported by the organization, can be viewed as a branding blog. The same goes for adverblogs and blogs that are not apparently connected to the organization.
- Target groups: See Relationship and Sales blogs.

Knowledge blogs - internal

- Purpose: To give employees information and insights relating to their work assignments; news, business intelligence, reports about ongoing projects etc.
- Blogger: The organization itself through one or more designated bloggers, or potentially all employees through a entirely open blog publishing model.
- Target groups: All employees with a certain interest.

Collaboration blogs - internal

- Purpose: To provide a working team with a tool for research, collaboration and discussion.
- Blogger: The team.
- Target group: The team.

(There's only a fine line - if any - between this blog category and business wikis. You could also see for example Relationship Blogs change into more wiki-like publications.)
