Home of the Social Networking Services Meta List

Posted Feb 14, 2005, 5:55 PM ET by Judith Meskill

Once again, this is my recently updated Social Networking Services Meta List. It is broken down into nine loosely built categories that will continue to shift. These social networking categories are: **business**; **common interest**; **dating**; **face-to-face facilitation**; **friends**; **MoSoSo** (Mobile Social Software); **pets**; **photos**; and **'edge'** cases or social networking **'plus'** sites.

The mostly recently added services are marked with an *. Please keep submitting your comments, links, and recommendations for additions and deletions. This list now stands at 300 entries. Thanks... (=)
