

Examples Of What Not To Do

Here are a few sites you might want to look at to see why we advise against certain things:

▫ <http://www.angelfire.com/super/badwebs/main.htm>

A site that shows you a few examples of what is bad.

▫ <http://www.hud-son.com>

Terrible layout, too flashy, with horrible graphics and scrolling text.

▫ <http://www.rsanford.com/sanfordWeb.html>

Interesting Flash intro, but useless navigation structure.

▫ <http://www.1amp.com>

Try figuring what AMP does...

▫ <http://www.indianrail.gov.in>

Terrible colour scheme

▫ www.crumplerbags.com

A weird site that is all Flash and takes long to load.

▫ <http://www.archis.org/interface.php>

Text in graphics form that is too small.

▫ <http://arngren.net>

This site is not in English, but one look at it and you know that bad design transcends language barriers!

Design Tips

Now that you know what not to do, it should be pretty simple to understand what is acceptable. Just avoid making any of the mistakes mentioned here and you should be fine.
