

General tips when using Photoshop

- At any time, you can hold down [Alt] and use the scroll wheel to zoom in and out of the image.
- To pan the image (if it's too big to fit in the main window or if you've zoomed into it a lot), hold down the spacebar, click, and drag.
- Hit [Tab] to hide all the palettes if you want to view only your image. Hit [Tab] again to make them reappear.
- If you want to work full-screen, use [F] to cycle among the various full-screen modes.

Now that you've armed yourselves with this preliminary knowledge, let's take a joyous nosedive into the world of Photoshop.
