

enter a string value with your own tip. For example, if the last tip is designated “Y”, the next tip could be “Z” with your String Value text.

Name	Type	Data
(Default)	REG_SZ	(value not set)
Z	REG_SZ	"Don't forget to visit ..."
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion...		

You can use any message in the String Value; it needn't be a tip! For example, try “Don't forget to call home!” as a tip and see how it appears when you next log in.

Hide The Username On The Start Menu

Use this hack to hide the Username that is usually displayed in the XP start menu—not the Classic Start Menu, where the username is not displayed.

Navigate to:

HCU\Software\Microsoft\Windows\CurrentVersion\Policies\Explorer

And to:

HLM\Software\Microsoft\Windows\CurrentVersion\Policies\Explorer

Change the DWORD Value `NoUserNameInStartMenu` to 1 to hide the username display. The default is 0.

Remove Or Change The Shortcut Arrow Icon

A tiny little modification to XP. If you prefer not to see the shortcut arrow icon in the bottom corner of the shortcut, use this hack to change it—or even remove it.

Name	Type	Data
(Default)	REG_SZ	(value not set)
28	REG_SZ	"c:\windows\system\shell32.dll,
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion...
