2.2.2 Zinf

www.zinf.org

Zinf is an open source audio player that is built for both Linux and Windows. The player has a good-looking interface and is really easy to use. It was a project that was based on FreeAMP, the open source answer to Winamp. You can get a whole range of themes from www.zinf.org/themes.php. It also supports SHOUTcast or Icecast streaming audio, Ogg Vorbis, MP3, WAV, Audio CDs, PLS or M3U
