The searches are optimised for the specific topic area and search queries on these pages will return results that are drawn exclusively from the sites that are considered part of this topic.

7.1.9. Special Operators

Other than search-related operators, Google also provides you with a quick and easy way to find definitions and meanings of words, and do basic mathematical calculations and conversions, using the search box.

7.2. Image Search

If you want to search for images, a quick and efficient way is to use Google Image search. Click on the Images link above the search box on the [google.com](https://www.google.com) (or [google.co.in](https://www.google.co.in)) homepage to take you to the image search home page.

Alternatively, type in your search term in the
