news = relating to Usenet net-news

soc = social issues

rec = relating to recreation like sports, games, hobbies, etc.

misc = miscellaneous topics

Discussion groups can be moderated or non-moderated, depending upon the options chosen by the group owner. To post replies to discussions or topics in a group, you need to join it first. You can also bookmark topics under “My Topics”.

In Conclusion

Groups are communities created by and for people with similar ideas and tastes, and for sharing information and resources. Posting messages, searching, customising group pages and browsing groups have improved under Google Groups Beta.
