

links that connect to URLs or e-mail IDs appear in non-HTML formats when the document is saved.

Bookmarks can be created using the Bookmarks link on the toolbar. Using Bookmarks and Links, a navigable Table of Contents can be created.

Inserting tables

Inserting Tables

You can choose the Rows and Columns of a table, besides its colour, borders, and other features.

Inserting Special Characters

If you would like to enter characters not available on the keyboard, use the Special Characters link.

Using Special Characters

One annoying feature is that after the object has been inserted, the Insert tab is exited. So if you need to insert more than one object, you'll need to return to the Insert tab.

4.2.4 Version Control

Comparing revisions is possible under the Revisions tab. Here you can choose to browse the different versions of the document by choosing the relevant version from the drop-down box. The “Revert to this Version” button at the top right allows you to fall back to the previous document, undoing all

Choosing revisions
