

A list of links that links to various blog template sites. Slightly old but still useful.

12. About.com's Collection of Blog Templates

(<http://tinyurl.com/v993x>)

Large collections of templates for most popular blogging platforms like Blogger, Movable Type, WordPress, My Space and so on. They also have some tutorials on HTML and CSS, which is useful if you want to learn how to control the look and feel of your blog.

13. More Templates
