

possibilities in Excel using functions and formulas. The advanced and specialised formulas in the categories Text, Lookup & Reference, Engineering, Cube, and Information (not covered here) also provide you with powerful ways to manage and treat data.

In most cases, for whatever you are trying to do, there is a good likelihood that you can achieve your result by using one function or a combination of functions. If you juggle a lot with numbers and text, taking the time to get familiar with Excel's functions and formulas has the potential to leapfrog your productivity and save you time.
