

2. **Time limits:** You can set time limits to control when children are allowed to log on to the computer. Time limits prevent children from logging on during the specified hours and, if they are already logged on, they will be automatically logged off. You can set different logon hours for every day of the week.
3. **Games:** You can control access to games, choose an age rating level, choose the types of content you want to block, and decide whether you want to allow or block unrated or specific games.
4. **Allow or block specific programs:** You can prevent children from running programs that you don't want them to run.

6.6.6 BitLocker Drive Encryption

This options grants access to the BitLocker program which we discussed at length earlier. From here you can either enable BitLocker or manage keys associated with BitLocker.

Bitlocker in the Security panel

Setting drive encryption to off or on

Using Online-Key Backup

Saving your recovery password
