

Weird Networking Sites

Not everyone is alike—there are the eccentrics and the square pegs trying to fit into round holes. The Internet, being the ultimate democratic medium of them all, gives everyone a voice. And since social networking is basically about individuals, there are places in the virtual world where these folks with their somewhat offbeat interests can congregate. In this section we bring you a review of ten such social networking sites which can't be slotted in any other category. Welcome to the Weird World Web.
