

PowerPoint 2003: Apply any design you'd like to your Slide Master

change the layouts of the Title Master or Slide Master. If you need to change the layout in PowerPoint 2003, you need to select a different layout in Normal view. This can be done from the layout pane thumbnail preview on the right.

The restriction has been removed in PowerPoint 2007: you can use the slide master itself to modify your layouts or create a new layout from scratch. Each slide master can now have many lay-

PowerPoint 2003—A presentation in Normal View, in the standard unmodified Layout. Apply your new layout in Normal View only
