

Q How to upload flash file on a Web site? For example, when we upload a file from many images uploader like imageshack, tinypic, etc., is there any way to upload a flash file also?

Boosters

A You can upload it on YouTube and embed the URL? Isn't that simpler?

Yahoo! Messenger Font Problem

Q I just installed Yahoo! Messenger 9.0 beta (Indian edition). Now when I run the programme, the screen shows rectangles instead of characters.

amit_stg

A I think it's because you may not have the required fonts. Control Panel > Regional and language settings > Advanced. Scroll down to 57002 and check All
