

- Keep the play head on frame 2 and go to the action panel.

- Here, copy and paste the script.

`gotoAndPlay(1);`

8.2 Drag Mask

You can see an image on the stage.

- Now, on clicking on the Insert Layer icon, insert a new layer

- Drag the image from the library to stage.
- Select the image, press [F8] and convert the image to a symbol
- Now select the Movie clip option, name the Movie clip as 'Draggable mask'
- Click OK.
