

- Convert it to Movie clip and name 'circle'.
- Right click over the Mask layer and choose mask.

- You will see that the image has been masked within the circle.

- Now return to scene 1.
- Right click on the Movie clip.
- Choose 'Actions', the Action panel opens.
- Here add this code:-

```
onClipEvent (load) {
    startDrag (this, true);
    posx = _x ;
```
